Course Organization and Content: Student View

When viewed from View All Content, students see only unit folders and the Student Resources folder. After students click on a unit folder, they will have access to additional folders.

Unit 2 shows you what students will see. The Student View default settings are shown below; instructors can choose to Hide or Show anything they wish. (Note: the Course Assessments folder is hidden in Student View by default.) For more information on the Hide/Show feature, go to www.myenglishlab.com.

Folder: Unit 1

Folder: Unit 2

Folder: Preview
