Grapes change into raisins. Nature helps.
Grapes change into raisins.
The hot sun dries them.
Grapes change into raisins.
People help.

Grapes change into raisins.
People pick them.
Grapes change into raisins. You eat them!

Reader Response

1. Where do raisins come from?
2. What other foods change from one food you eat into another?
3. Think of your favorite food. How do people and nature work together to bring that food to you?
